Tom McCann supports Slough Lib Dems' campaign for better health and well being

Tom McCann (left), Lib Dem candidate for Slough at a GP surgery in Cippenham discussing with Robert Plimmer (right) how Lib Dem plans for £6 billion extra a year for the NHS and social care would help the health services across Slough cope with increasing demand in a joined-up way.

The Conservative Government is not giving the NHS enough money.

Tom McCann, health charity worker and Lib Dem Parliamentary candidate for Slough, backs Lib Dem plans to put a penny on income tax to reverse Tory cuts to the NHS.

The £6 billion extra each year would additionally allow the health and social care services to provide efficient, joined-up services, including in areas such as mental health that have long been under-funded.

Tom said: 'The Lib Dems also believe that nurses and others who do vital work in the public services should no longer have their pay rises capped at just 1%.'

Lib Dem campaigner in Cippenham, Robert Plimmer, gets support from Tom McCann for his long-running campaign against Slough's Labour Council's massive increase in charges for hiring sports pitches.

This silly policy has caused a large drop in the number of pitches hired. Tom supports Robert's demand that this policy that is damaging physical activity and well being be reversed.

'Let the people decide' says Tom McCann

The Tory policy of hard Brexit and leaving the Single Market will have severe consequences for UK industry. Tom McCann, Lib Dem candidate for Slough, says: 'At the end of the Brexit negotiations the British people deserve the final say on whether to accept the deal or remain in the EU.'

For an MP to work for Slough residents vote

TOM McCANN

Enthusiastic campaign launch: reverse Tory cuts, make Labour Council listen

Tom McCann's launch meeting (see left) heard his Lib Dem plans, including:

- **reverse Tory cuts to the NHS and Education** (with properly funded commitments unlike Labour's fantasy promises);
- **let the people have a vote** to accept the final Brexit agreement or remain in the EU;
- **force Slough's Labour Council to listen more to local residents** by working with the Slough Lib Dem Focus teams (see below)

Tom McCann says Slough needs an MP to stand up against the Labour-run Council on issues like:

Unwanted traffic schemes: across Slough from Burnham (Station Rd) to Langley the Labour council introduced traffic schemes without listening to local residents. As your MP Tom would support campaigners such as Robert Plimmer who highlighted the chaos being caused by the Council both north and south of the A4.

Mismanaging the Children's Services and the Heart of Slough: Slough's MP should speak out against the Labour Council when it runs services so badly Central Government has to step in and take over. Also when projects like Heart of Slough are so behind schedule.

Tories will clobber the elderly and families

Every vote for Tom McCann is a vote against Theresa May's plans to introduce a 'Death Tax' for the elderly, remove the Triple Lock and remove free school lunches.

The Tories will hit thousands of elderly Britons receiving care in their own homes with a 'Personal Death Tax.' So the more help you need, the more Theresa May will snatch away when you die.

The Tories will remove the Triple Lock that guarantees reasonable increases in the state pension. The Lib Dems had introduced the Triple Lock during the Coalition Government.

Mrs May also plans to take away free school lunches from almost two million children.
